BOARD OF HEALTH MEETS.

All Government Physicians Except One Ask for Reappointment.

SUPERINTENDENT OF THE ASYLUM.

The Committee on Quarantine Makes Some Suggestions Which Will Improve the Facility of the Fumigation of Cargoes—Kaimiloa May be Used.

The Board of Health met yesterday afternoon, with President Smith in the chair. There were present Messrs. Ena, Lansing and Waterhouse, and Doctors Day, Wood and Howard.

The Committee on Quarantine, Dr. Day and J. J. Waterhouse, Jr., reported as follows:

To Hon. W. O. SMITH, President of Board of Health.

Your Committee on Quarantine and Contagious Diseases, recognizing the inadequacy of the present equipment at the quarantine station to properly disinfect vessels coming from infected ports or with contagious diseases on board, recommend that the Government be requested to take steps to erect an efficient disinfecting plant.

The method at present employed consists in placing eight or ten galvanized iron buckets, each charged with several pounds of brimstone, on the floor of one of the buildings in which the passengers' effects are hung. The brimstone is ignited, the doors closed and the process allowed to take care of itself for six or eight hours, when the doors are opened, men rush in and drag the smoldering buckets out of the building. The effects are then supposed to be clean.

The objections to this method are:

1. Sulphur dioxide is not as efficient as heat for purposes of disinfection.
2. The danger of fire. If a single garment should happen to fall into one of the buckets the whole building and its contents would be destroyed.
3. The relatively small percentage of sulphur dioxide thus obtained.
4. The risk to the individuals from inhaling the irritating sulphur fumes.
5. There is no provision made for the disinfection of vessels and cargoes.

Under the present arrangement the community has very little real protection against invasion from such deadly diseases as small pox, cholera, plague, yellow fever, etc.

What is needed to place the quarantine station on a scientific basis is a hot-air chamber and accessories for disinfecting clothing and baggage, a sulphur furnace and accessories for fumigating the holds and other enclosed spaces of vessels and the cargoes, and a corrosive sublimate tank for flushing decks, bilges, closets, etc. In short, such a plant as described in the plans and specifications submitted to the Board of Health by the Kensington Iron Works of Philadelphia, with such modifications and alterations as are necessary to adapt them to the conditions present at the quarantine station.

(Signed) F. R. DAY, M.D.,
J. T. WATERHOUSE, JR.
Honolulu, August 22, 1894.

President Smith presented a report from A. W. Keech in the matter of utilizing the old Kaimiloa as a disinfecting station. It was referred to the Committee on Quarantine.

President Smith said he had spoken to Mr. Suhr about the arrival of the Belgic. The latter suggested, if the Belgic arrived under the same conditions as the Rio Janeiro, that it would be a good plan to moor her at the Mail wharf, and to quarantine her there.

President Smith reported that all the Government physicians had asked to be re-appointed, and had taken the oath, except Dr. McKibbin. He sent a letter, saying that he had held his present position for thirty-four years, and that he would take no oath. President Smith said he had seen Dr. McKibbin, and had told him it was not in the option of the Board to reappoint him unless he took the oath of allegiance.

Mr. Lansing moved that all those who asked to be re-commissioned, have their new papers issued to them on the approval of the Minister of the Interior. Carried.

President Smith said that Dr. Hatzopoulos had been notified to attend, but was not present.

Dr. Oliver applied for a week's leave of absence. Granted.

Letters were read from Mr. Meyers, the superintendent of the leper settlement. They contain nothing

of any special importance, beyond a record of the daily doings of the unfortunates and their needs.

An application from Dr. F. M. Gardner, of Riverside, Cal., for a position as Government
